## Managing SIP Quality

John Timms

Telchemy Incorporated

# SIP Quality Management?

---

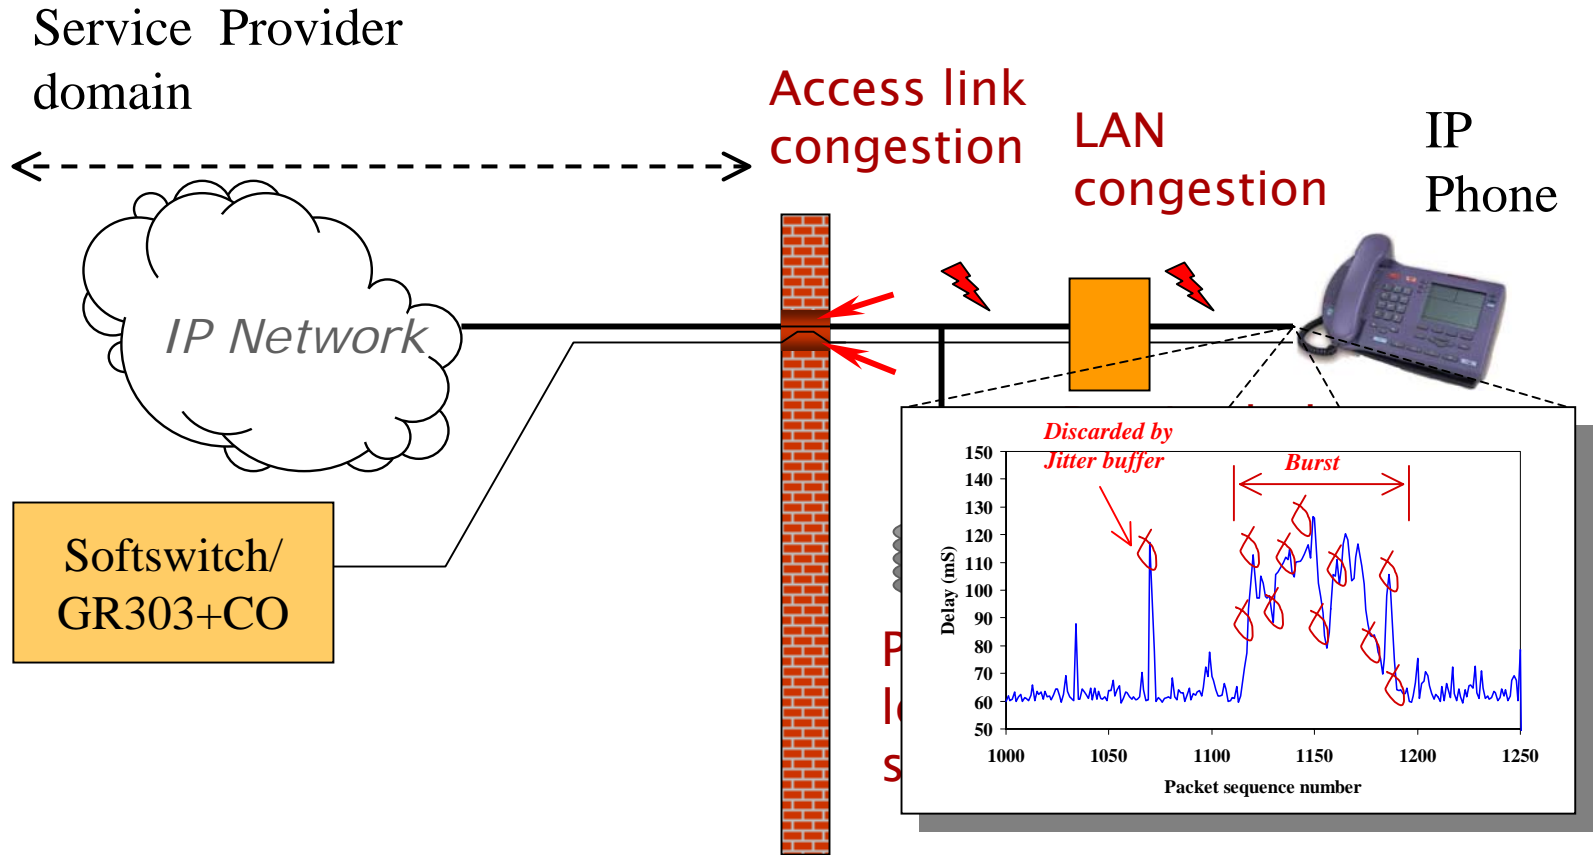

# IP Centrex - Scenario

# Customer LAN Issues

# Customer LAN Issues

# Lack of Management Access

# Guilty until proven innocent?

# So what's the solution?

---

- Rapid identification of problems
  - Detect problems at the customer end of the VoIP path
- Get information on customer net problems through the Firewall
- Be proactive in informing customers that they have service-quality-affecting problems

# IP Phone's viewpoint?

---

*Impairments from:*

Service provider  
IP network

Access  
Link

LAN

# IP Phone's viewpoint?

# Result - time varying quality

---

# Embedded call quality monitoring

VQmon provides *real time monitoring* of large numbers of VoIP calls, measures *time varying* and *transient* impairments and provides a *perceptual quality score*.

# How accurate?

Subjective data from COMSAT

G.711 PLC

# Extended RTCP

The new RTCP Reporting Extensions draft provides an ideal way to get metrics from an IP phone, through a Firewall and to a management system

# Implementation in IP Phone

---

VQmon/EP software embedded  
into phone control uP/DSP

Call quality metrics in end-of-call  
message (e.g. H.323 DRQ)

Call quality metrics in Extended RTCP  
message (X-RTCP) during call and/or at  
end-of-call

Other formats - XML, SNMP...?

# Implementation in Probe

VQmon/SA embedded into 3<sup>rd</sup> party  
SLA Monitor/ Probe/ Analyzer

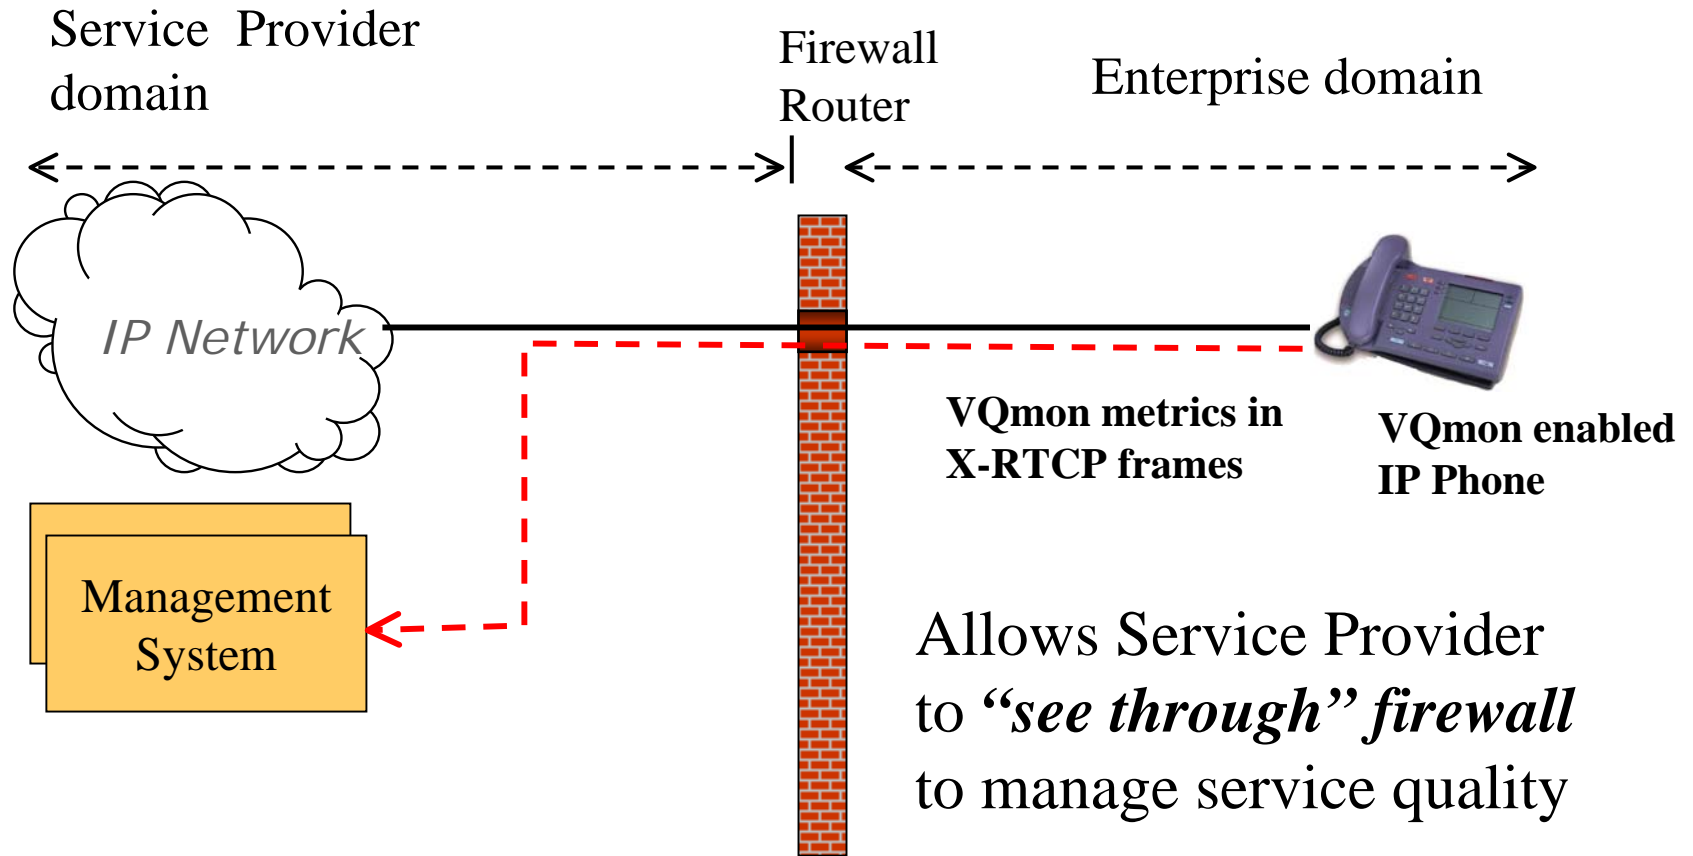

Call quality scores (MOS, R)  
Degradation factors (% due to.....)  
Burst loss and discard data  
Out of order, duplicate.....  
Jitter metrics  
Trace analysis

# IP Centrex - Scenario

# Solution to IP Centrex problem

# Solution to IP Centrex problem

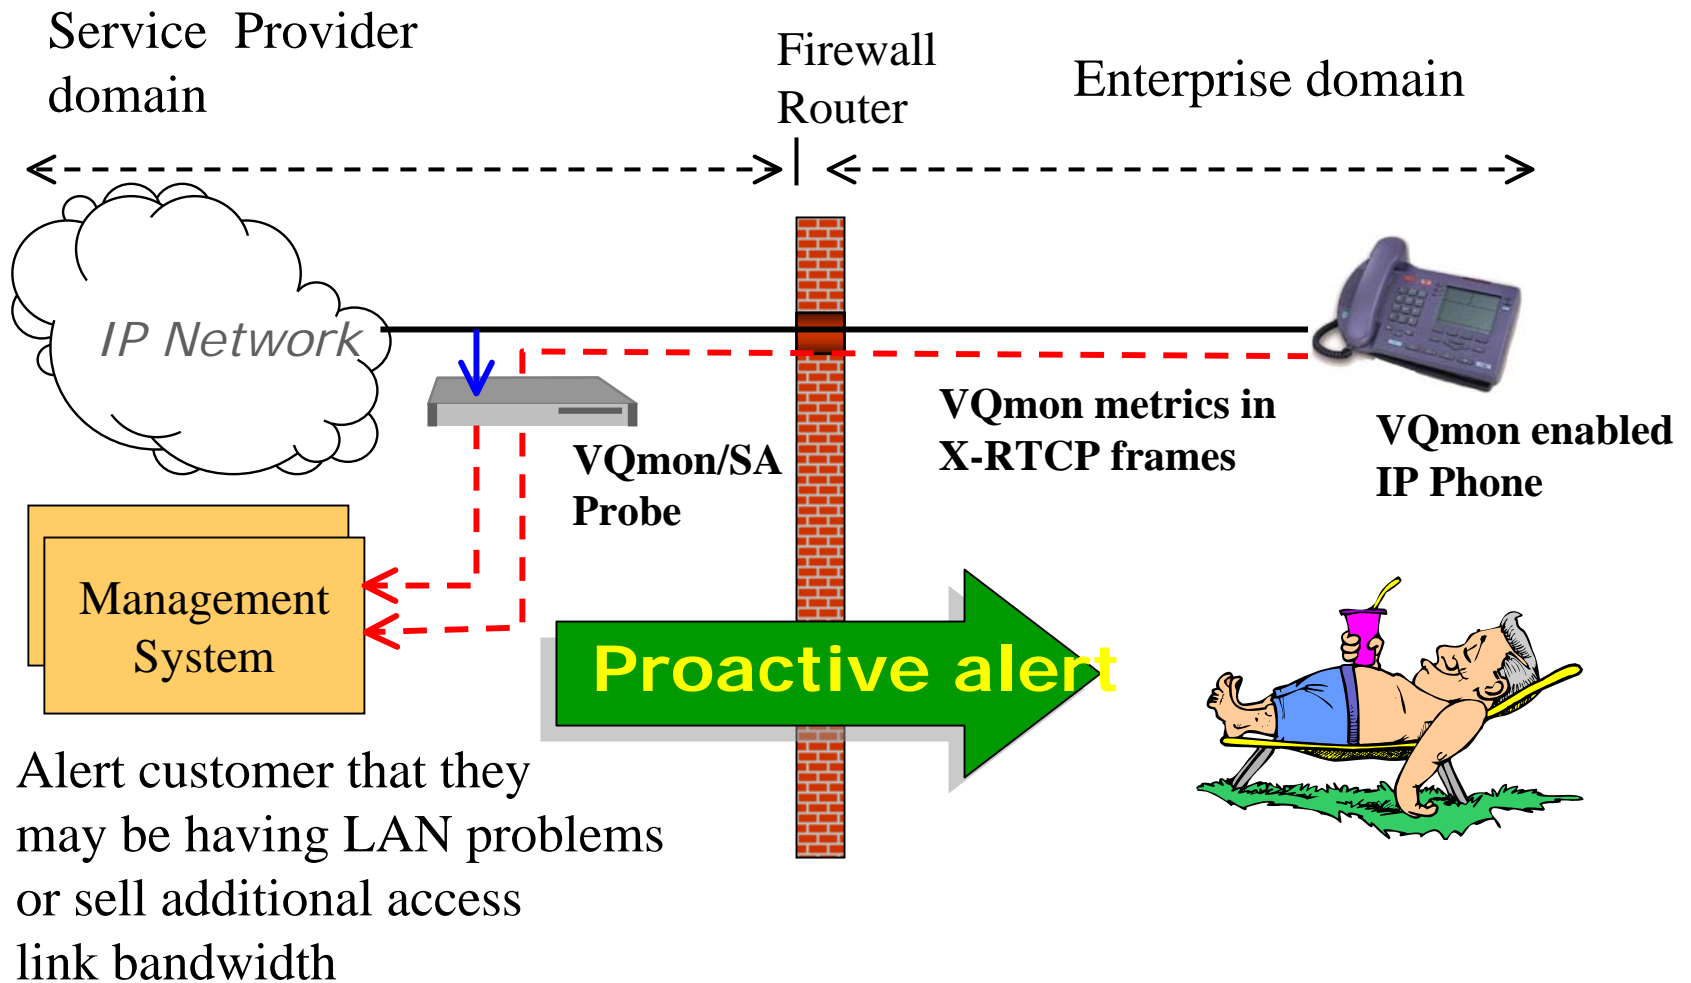

NMS is provided with Data from endpoint and Local analysis of packet stream

# Guilty until proven innocent?

# ..or marketing opportunity?

# Summary

---

- Proactive solution to managing customer network problems
- Based on multi-vendor technology
- Same basic monitoring and diagnostic technology is available in:
  - SLA monitoring systems
  - Sniffer/analyzers used for fault isolation
  - Products used by Service Provider and Enterprise

# About Telchemy

---

- **Focus**
  - Founded in August 99, first product launched in April '01
- **Focus**
  - Providing essential management infrastructure for IP based Voice and Video services
- **Value Proposition**
  - Reduce direct and indirect operating costs
  - Improve/ maintain quality of Voice and Video over IP services
- **Business Model**
  - Software with high algorithm/ IPR content
  - License and OEM products to equipment manufacturers
- **Technology**
  - Two “Best of breed” products already on the market
